---

IN SECTIONS 3, 5, 7, 8, 9, 17 AND 18,

---

TOWNSHIP 20 NORTH, RANGE 27 EAST

---

Of the Gila and Salt River Meridian,

---

In the State of Arizona

---

EXECUTED BY

Joe R. Salazar

Cadastral Surveyor

---

Under Special Instructions dated January 12, 1987, approved February 17, 1987,  
and Supplemental Special Instructions dated February 29, 1988, approved February 29,  
1988, which provided for the surveys included under Group Number 686 and assignment  
instructions dated October 19, 1992.

Survey commenced	<u>July 25, 1993</u>
Survey completed	<u>April 23, 1997</u>

## T. 20 N., R. 27 E., Gila and Salt River Meridian, Arizona

## CHAINS

The following field notes describe the dependent resurvey of a portion of the west boundary and the subdivisional lines, and the subdivision of sections 5, 8 and 18 and metes-and-bounds surveys in sections 3, 5, 7, 8, 9, 17 and 18, Township 20 North, Range 27 East, Gila and Salt River Meridian, Arizona.

The Fifth Standard Parallel North through Range 27 East, and the south and west boundaries were surveyed by Frank Follman in 1882. The Fifth Standard Parallel North through Range 28 East and the east boundary were surveyed by W. R. Fitzgerald in 1882. The subdivisional lines were surveyed by Frank Follman in 1883. The Fifth Standard Parallel North through Range 28 East was resurveyed and retraced by William Strover in 1910. The Fifth Standard Parallel North through Range 28 East was dependently resurveyed by William P. Carpender and Stephen J. Malloy in 1987-94. The Fifth Standard Parallel North through Range 27 East was dependently resurveyed concurrently under Group No. 685 by William P. Carpender and Darren R. Breckenridge in 1988-94.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated January 12, 1987, and the Supplemental Special Instructions dated February 29, 1988 for Group No. 686, Arizona.

Preliminary to the resurvey, the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of all lines were determined by the technique of static differential positioning using Ashtech models M-XII and MS-XII geodetic units, confirmed by direct hour angle observations on the sun, and refer to the true meridian. Distances and angles were measured with a Pentax PTS 3, total station instrument.

The geographic position of the corner of Tps. 19 and 20 N., Rgs. 27 and 28 E., was determined by the technique of static differential positioning using Ashtech models M-XII and MS-XII geodetic units. U. S. Coast and Geodetic Survey triangulation stations "BEACON 54B ECC 1936" AND "DEAD 1936", were used as the control stations. The coordinates refer to the top of the monument and are as follows.

Latitude 35°04'53.443" N.      Longitude 109°25'01.279" W. NAD27

## T. 20 N., R. 27 E., Gila and Salt River Meridian, Arizona

## CHAINS

The mean magnetic declination, as taken from the quadrangle map CHAMBERS ARIZ. Published in 1971 by the U. S. Geological Survey, is 13 1/2° E.

---

Dependent Resurvey of a Portion of the West Boundary,  
T. 20 N., R. 27 E., Gila and Salt River Meridian, Arizona

---

Restoring the survey executed by  
Frank Follman, in 1882

---

Beginning at the cor. of secs. 1, 6, 7 and 12 on the W. bdy. of the Tp., monumented with a stainless steel post, 2 1/2 ins. diam., firmly set, projecting 4 ins. above ground, with brass cap mkd. T20N R26E R27E S1 S6 S7 S12 1988, as described in the field note record of the dependent resurvey of a portion of the E. bdy., T. 20 N., R. 26 E., executed concurrently under this same group.

N. 0°09' E., bet. secs. 1 and 6.

Over rolling land

39.88

The 1/4 sec. cor. of secs. 1 and 6, reestablished by Lacy Camp Greer, Arizona Registered Land Surveyor No. 5704, monumented with an iron post 2 1/2 ins. diam., 24 ins. long, firmly set 13 ins. in the ground, with brass cap mkd. RLS 5704 T20N R26E R27E 1/4 S1 S6 1971. This is accepted as a careful and faithful reestablishment of the original cor. position.

At the cor. point

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with brass cap mkd.

T20N  
R26E R27E  
1/4  
S 1 | S 6  
1993

Bury the iron post alongside the stainless steel post.

Deposit a magnet in a plastic case beneath the stainless steel post.

Set a steel fence post alongside the cor.

## CHAINS

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with brass cap mkd.

T20N R27E	
S 2	S 1
<hr/>	
S11	S12
1993	

Deposit a magnet in a white plastic case beneath the stainless steel post.

Bury the juniper post alongside the stainless steel post.

Set a steel fence post alongside the cor.

---

From the cor. of secs. 1, 6, 7 and 12, on the E. bdy. of the Tp., monumented with a stainless steel post, 2 1/2 ins. diam., firmly set, projecting 4 ins. above the ground, with the brass cap mkd. T20N R27E R28E S1 S6 S7 S12 1988, as described and witnessed in the field note record of the dependent resurvey of the W. bdy., T. 20 N., R. 28 E., executed concurrently under this same group.

N. 89°54' W., bet. secs. 1 and 12.

Over rolling land.

41.19

The 1/4 sec. cor. of secs. 1 and 12, monumented with a juniper post, 3 1/2 ins. square, 33 ins. long, firmly set 13 ins. in the ground, mkd. with 1/4 on N. face and 1A on S. face. This position is accepted as the best available evidence of the original corner.

At the cor. point.

Set a stainless steel post, 28 ins. long, 2 1/2 ins. diam., 24 ins. in the ground, with brass cap mkd.

## CERTIFICATE OF SURVEY

I, Joe R. Salazar, Cadastral Surveyor, HEREBY CERTIFY upon honor that, in pursuance of Special Instructions bearing date of the 12th day of January 1987, and Supplemental Special Instructions bearing date of the 29th day of February, 1988, I have dependently resurveyed a portion of the west boundary and the subdivisional lines, and subdivided sections 5, 8 and 18 and executed metes-and-bounds surveys in sections 3, 5, 7, 8, 9, 17 and 18, in Township 20 North, Range 27 East, Gila and Salt River Meridian, in the State of Arizona, which are represented in the foregoing field notes as having been executed by me and under my direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

MAR 11 1998

(Date)

(Cadastral Surveyor)

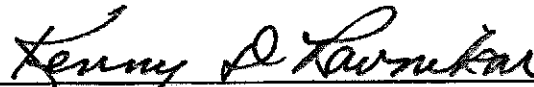

## CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT  
Arizona State Office  
Phoenix, Arizona

The foregoing field notes of the dependent resurvey of a portion of the west boundary and the subdivisional lines and the subdivision of sections 5, 8 and 18 and metes-and-bounds surveys in sections 3, 5, 7, 8, 9, 17 and 18, in Township 20 North, Range 27 East, Gila and Salt River Meridian, Arizona, by Joe R. Salazar, Cadastral Surveyor, having been critically examined and found correct, are hereby approved.

04/13/98

(Date)

(Chief Cadastral Surveyor of Arizona)

~~CERTIFICATE OF TRANSCRIPT~~

~~I CERTIFY that the foregoing transcript of the field notes of the above-described surveys in T. 20 N., R. 27 E., Gila and Salt River Meridian, Arizona, is a true copy of the original field notes.~~
